How to purchase NiFe batteries from BeUtilityFree, Inc.

Step 1: Download the NiFe “Prices and Sizes” pdf from the BeUtilityFree.com [NiFe webpage](#). Call or email us with the part # and quantity for the cell type you want.

Step 2: We'll create a quote for you and send it via email or fax for your approval. Shipping is NOT included and is based on order weight.

Payment terms: 65% down to confirm order and 35% due upon confirmation of battery shipment leaving from China port. The 65% deposit is based on the product price **without** shipping costs.

Step 3: After your order confirmation we will change your order into an invoice. Then send your invoice via email or USPS if you do not have email.

Step 4: Send us your down payment. We accept bank wire transfers preferred, bank check over the phone, certified funds or major credit cards (Visa, MasterCard, etc.) as payment. You do not have to mail a check any more to us because we can do a check over the phone transaction. All international orders must be paid via bank wire transfer. **No exceptions.** Bank wire transfer fees are charged by the bank and will be added to your invoice.

Step 5: Once the shipment is ready to be shipped from the China port your 35% balance is due.

Step 6: Once everyone has paid the 35% balance, shipment is released from China to be sent to destination port either to the USA or elsewhere. Los Angeles, CA for USA shipments. Once inside the USA the shipment is sent to our warehouse for distribution.

Step 7: Once your shipment has cleared customs in the USA we will send you a confirmed freight quote. A shipping payment must be made within 48 hours. The fastest type of payment is check over the phone or major credit card. We assess a late fee of \$25/day after more than 3 days without payment. If the shipment is going from China to another country, the customer pays customs and duty fees.

Step 8: Once your payment has cleared, we release the shipment. After shipment leaves CA we will contact you with a tracking number. If you prefer to pick them up in LA you must let us know after they arrive in Los Angeles. There is a \$100 fee to separate your crates from our container shipment if you want to pick up your order in Los Angeles, CA.

All NiFe battery orders come with the following:

- | | |
|---|--------------------------|
